

Where Industry Meets Academia – ICMASS 2023

The 5th International
Conference on MASS
ICMASS 2023

EUROPORT 2023
7-10 Nov | Rotterdam Ahoy

Rotterdam, Netherlands – November 8th and 9th, 2023

“International Conference on Maritime Autonomous Surface Ships”

Register for participation: www.icmass2023.org

At ICMASS industry and academia meet to discuss and advance the latest in science and technology in **maritime autonomous surface ships**.

ICMASS’23 will feature **over 60 contributions** with clear technical applications as well as more application-oriented results. This year’s theme is ‘**Autonomy for Sustainable & Green Shipping**’, featuring topics such as:

- Sustainable & **green** shipping
- **Safety** evaluation/assessment
- **AI** and **control** for optimized, safe vessel operation
- **Shore control** functions & technology
- Autonomy in **inland shipping & city logistics**
- **Smart ships** meets **smart logistics**
- Regulatory & **legal** frameworks
- Technology and **liability**
- **Collaborative** systems
- Test areas and **field labs**

The program moreover features 2 keynote lectures, and special sessions on multidisciplinary integration of insights for autonomy, as well as strategies for market uptake acceleration. The published conference proceedings will feature peer-reviewed full papers of a selection of the presented contributions.

During the Welcome Reception (November 7, at the Maritime Museum Rotterdam), the coffee and lunch breaks, as well as the dinner, you will have ample opportunity to mingle and informally meet the international community to discuss latest insights and opportunities for collaboration.

ICMASS 2023 is organized in Rotterdam, The Netherlands, by the International Network for Autonomous Ships, SMASH!, RAS/TU Delft, in conjunction with the EUROPORT exhibit.

We look forward meeting you in Rotterdam!
